

# The ARREST Newsletter

**45 patients enrolled in ARREST**  
**7 patients were recruited in July**

*Hammersmith Hospital*

*University College London Hospital*

## The ARREST pan-London launch is imminent.

We would like to thank the fantastic PIs, research nurses and R&D teams at all of the sites involved for helping us to get ready to go pan-London at the beginning of August. This includes Homerton, Whittington, North Middlesex, Northwick Park, Hammersmith, Charing Cross, St Mary's, UCLH, Central Middlesex and Ealing who all had their site initiations in July! It has been a hot and very busy month.

We are also currently waiting on approval for an amendment, submitted on the 10th July. Once the amendment is approved paramedic training will roll out across the whole of London and all of our sites will begin to see patients that have been enrolled in the ARREST trial.

We expect to see an increase in the numbers of patients enrolled and we will report on that and trial progress in general over the coming months.

We have loved meeting you all at the site visits and are really looking forward to working with everyone over the next two years!

## eCRF

The eCRF went live on 9th July. As we begin to roll out access to the eCRF to all open sites there are a few things to remember:

- Data collection for patients can begin when the consent form has been added.
- Sites will be responsible for completing eCRF data up to 3 months post randomisation.
- Mortality data at 6 and 12 months will be collected centrally by Karen Wilson, Lead Cardiovascular Research Nurse at St Thomas' Hospital in London.

Over the next few weeks we will be setting up accounts for all the open sites and the CTU's Senior Data Manager, Steve Robertson will be in touch with you about this. If you have questions concerning the eCRF please get in touch with Steve.

## Meet the team: Steven Robertson

Steve is the Senior Data Manager at LSHTM CTU. As part of the ARREST team, Steve will be responsible for all aspects of data management. Steve also works on several other cardiovascular trials within the LSHTM CTU.

You can contact Steve via email on [steven.robertson@LSHTM.ac.uk](mailto:steven.robertson@LSHTM.ac.uk) or by telephone on 020 7958 8181.
